Indian Infrastructure

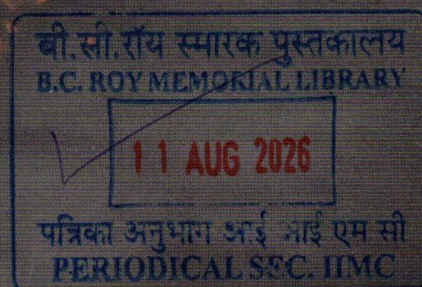

VOLUME 28 • NO. 12 • July 2026

Sector Focus

Oil & Gas 29

Towards a resilient energy future

चालू वितरण
CURRENT ISSUE

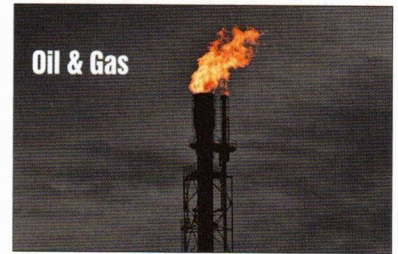

Special Section

Digitalisation in Infrastructure 53

- 16 Building nuclear power capacity for a low-carbon future
- 20 Construction practices and challenges in building railway tunnels
- 22 Noida International Airport opens up new gateways of opportunity
- 25 NHEV programme aims to build an AI-powered mobility ecosystem

Contents

>> NEWS BRIEFS: SECTOR VIEW

Key developments: Across sectors

>> POWER

Demand uptick: Key drivers and initiatives to meet the growing power requirement

Nuclear ambitions: Building capacity for a low-carbon future

>> RAILWAYS

Engineering safe tunnels: Construction practices, challenges and the road ahead

>> AIRPORTS

Taking flight: Noida International Airport opens up new gateways of opportunity

>> ROADS AND BRIDGES

Intelligence layer: NHEV to build an AI-powered electric mobility ecosystem

Key statistics: Monetisation moves in the road sector;

Progress under the Bharatmala Pariyojana

>> SECTOR FOCUS: OIL & GAS

Ensuring energy resilience: Building a secure and self-reliant oil and gas sector

Views of Arun Kumar Singh: "ONGC is repositioning itself around natural gas"

Views of Dr Ranjit Rath: "Oil India is driving India's shift towards a gas-based economy"

Renewed interest: CNG segment gains traction

Built to last: Managing asset life cycle and obsolescence in pipelines and systems

Scaling up: Efforts to enhance CGD capacity and uptake

Optimising performance: Key role of automation in improving operational efficiency and agility

Growing confidence: Industry perspective on CBG policies, project development and financing

Emerging fuels: Shifting towards a diverse energy system

Key statistics: Trends in the natural gas sector; Update on crude oil processing, petroleum product consumption and pipeline network

>> SPECIAL SECTION: DIGITALISATION IN INFRASTRUCTURE

6 Building on data: Increasing digitalisation across infrastructure sectors 54

14 Digital development: Contractors' views on technology trends and challenges in project execution 56

16 Technology benefits: Need for greater digitalisation across the construction ecosystem 59

20 Improving efficiency: Consultants discuss the impact of digitalisation on infrastructure design and planning 60

>> URBAN MASS TRANSIT

22 On the right track: Technology integration and indigenisation mark the next phase of metro operations 62

>> CONSTRUCTION

25 Sustainable practices: Emphasis on reducing the environmental footprint of construction 64

>> INFRASTRUCTURE FINANCE

26 Green hydrogen economics: Cost and financing considerations 66

>> FINANCIAL NEWS

30 Key financings: Across sectors 68

>> COMPANY RELEASE

34 72

>> PEOPLE

36 Sudhir Kumar Srivastav; Rajiv Kumar Porwal; Piyush Pandya; Jitendra Singh 74

>> DATA

40 Key statistics: Consumer price index trends; Trends in GDP growth 76
